

Imp Club Spares Stock List and Prices – from November 2017

Compiled by R.J. Allan

I have been working with Imps for nearly 40 years!

This is the list of spares stock held currently by The Imp Club Ltd. We buy new after market and “new old stock” spares from time to time at advantageous prices for sale to Club Members. We also stock re-manufactured parts, to which we apply our own quality control procedure. Please don’t forget that if the part you require is not listed here, then a member of the Specialist Panel may be able to locate it for you – see the last section in this Web site. You can contact me and I will suggest a supplier who may be able to help.

If members have un-wanted parts for Imps or variants, or are able to source any quantity of new spares which may benefit other members, please contact the Spares Coordinator or Spares Facilitator. Some parts are now in short supply and your help is much appreciated.

For a printable (PDF) version of this list click here: [stock.pdf](#). We recommend you view the on-line version to save paper.

If you want a ready printed summary of this catalogue (24 pages) please send an SAE and £2.00 in stamps to me at the address on page 1 below.

© **The Imp Club, 2005-17.** The Imp Club Spares Scheme is a service offered by Imp Club Members to other Members. The Imp Club Ltd. does not accept any liability for the suitability of spares provided or for the use to which they are put after sale or information supplied. However all information and advice is given in good faith and passed on from original dealers’ information or experience of Club members. Parts are bought as described and should be returned immediately if the customer is not satisfied (there may be a small handling charge to cover postal charges).

1 Imp Club Spares Stock List and Prices – from November 2017

Here is the list of spares held currently by The Imp Club Limited. We try to buy spares from time to time at advantageous prices for sale to Club Members. Please don't forget that if the part you require is not listed here, then a member of the Specialist Panel may be able to locate it for you. If we can't locate a new part we may offer second hand items available from another Club member.

We have good stocks at the moment but once these stocks are exhausted, assuming the £ does not strengthen against the US\$, prices will have to rise, probably by an average of 10%.

Many suppliers have already confirmed an increase of 5-10% from the start of this year. We have had to increase our prices to reflect this.

Spares in this list are advertised at a cost which has been discounted to members for their own use. Since the Club is run on a voluntary basis for the mutual benefit of all members we have to ask that buyers declare their membership number. Cost of membership is, at the time of writing, £24.00 per annum for the UK (plus £3.00 once off joining fee). Please check Web site for latest amounts. For overseas prices please contact the membership secretaries.

When confirmation of order is received, this is to indicate that we have received your order. It does not indicate that a contract exists between us. We will indicate acceptance of your order, and hence a contract between us, when we send you an invoice. We have included this term to protect us in the case that a mistake has been made in pricing, we have inadvertently under priced goods, or we are no longer able to supply a particular product for some reason. In the case of a change of price, we will try to contact you first to ensure that the new price is acceptable.

For insurance and VAT reasons, we are un-able to sell to non-members or to dealers for re-sale. We are now VAT registered (number GB 141 9391 11) and VAT may have been paid at source on all items marked “*”. We can provide a VAT receipt if required.

If members are able to source any quantity of new spares which may benefit other members please contact the Spares Coordinator or Spares Facilitator as below. Information given in this list includes part number, description, availability and price at date of publication subject to P&P. To order, please contact us or send a cheque payable to “The Imp Club”. We are also able to accept most credit cards, but subject to an additional handling charge of £1.00 or 5% whichever is the greater.

Spares Coordinator

Keith Robbins
21 Elmwood Close
Retford
Notts. DN22 6SL, UK
+44 (0)1777 703146
e-Mail keithandmaryr_at_talktalk.net

Note: Follow our Twitter feed here *@ImpClub_Spares*.

If we haven't got what you want – please ask, as stock is changing all the time. If we *really* haven't got it, we will find someone from the Spares Panel who may be able to help.

Please note that we are now stocking re-manufactured components from Malcolm Anderson, Ben Boulton and ourselves, which are included in this list. We also have new suppliers of brake components, radiators, gaskets and body seals. Prices have been updated accordingly.

If you know of any new, un-used (new), Imp or Climax spares please contact the Imp Club via Bob Allan +44 (0)1925 267084 or any other Club official. Please note that some Imp based vehicles use Triumph Spitfire front suspension and steering components. We are also willing to stock these and will recommend suppliers.

If you are a supplier, have experience in sourcing equivalent components, re-conditioning or re-manufacturing, and are willing to help, we would be glad to hear from you.

The Rootes Archive Centre has a very extensive collection of original drawings and related information about the manufacture of Rootes cars, including Imps. To see the list of Imp drawings and original part numbers, go to the Web site <http://www.rootesarchivecentre.org.uk> and follow the link to The Index or Drawings.

1.1 Comments from Club Members

Jules Birch, High Wycombe, 12/5/2017 *I have found getting some Imp parts is quite tricky and you have been very helpful.*

Ian Harrison, Canada, 1/5/2017: *Thanks very much for all your hard work. Everything arrived in good shape. I especially appreciate you finding me the [...] That was above and beyond.*

Ruben Galea, Malta, 1/4/2017: *Incredible you guys at the Imp Club, so fast with the info I asked for in only 24 hrs. thanks regards. In my life I had many marques and I've been member in many clubs but I always said to my friends: NO ONE BEATS THE IMP CLUB. Soon you'll have me a member again, cause I sold my Imp three years ago and as if I left some one special.*

Andrew Laird, Edinburgh, 21/2/2017: *Many thanks for everything you have done for me. Really, much appreciated.*

Andrew Wild, Blackburn, 21/2/2017: *Parcel arrived yesterday, excellent service as always.*

Lars Hagermark, Sweden, 19/2/2017: *Thank you for an excellent service once more. Very happy.*

Gavin Miller, Redcar, 28/10/2016: *Firstly, thanks again for all of the supplies during my restoration. As you are possibly aware, the car won its class in the modified category at National, so you deserve some credit for the support you gave me.*

Mike Woodley, Bicester, 21/10/2016: *I must admit I was horrified at the thought of trying to get parts for this [MkI] rebuild but you guys at the Imp club have made it a breeze, the job is now quite fun, many thanks for your help with the last order.*

David Jones, Leicester, 1/10/2016: *Many thanks for the prompt delivery of ... Fantastic service, much appreciated.*

John Simister, Berkhamsted, 19/8/2016: *Thank you Bob, thats beyond perfect.*

John Simister, Berkhamsted, 17/8/2016: *Just to let you know that the ... seat diaphragm I bought from you [at National] works well. The existing holes in the rear cross tube of the Imp seat frame are in the right place, as are the rearmost of the three holes in the side tubes. So new holes are needed for the remaining two hooks on each side, and for the two hooks at the front. I drilled the front ones first, to get the right stretch on the diaphragm and thus the correct locations for the new side holes.*

Mike Pass, Dorset, 28/6/2016: *Thanks for your support and advice – and all the hard work on behalf of "the best club I have ever belonged to" – Cheers Mike.*

Ron Swaine, Winnipeg, Canada, 19/6/2016: *I want to thank you for the attentive service you always provide me, a very distant customer. I'll continue to come back to you, as I'm sure I'll need to from time to time. They [Ginetta G15] are fun cars, but charmingly eccentric (to put it mildly). By the way, I just joined the Imp Club because I know they'll provide great support.*

Philip Smith, Newport, 14/6/2016: *We're grateful for the effort and time that you put in. I'm sure many think it's easy, but it sure isn't.*

NEC Restoration Show, 5-6/3/2016: Imp Club nominated for "best car club" and Myself nominated for "unsung hero". Thanks to all for your support.

Roy Blunt, Newport, 18/1/2016: *The package arrived this morning – SUPERB SERVICE!*

Simon Benoy, Stevenage, 9/11/2015: *I knew you were a star, this just reinforces that belief! Top job...*

Gavin Miller, Ravenscar, 8/9/2015: *Arrived yesterday... Super quick!*

Graham Mills, London, 8/6/2015: *Parts received this morning - first class parts and service, thank you very much.*

Pete Crank, Telford, 30/3/2015: *Thanks for an excellent service... I shall use The Imp Club a lot more for spares – I honestly didn't realise what and how much you do!*

Melvyn Friend, London, 26/1/2015: *Brilliant service = top team!*

Mark Winspear, Whitby, 25/1/2015: *Just to let you know the parts arrived this morning. Exactly what I needed.*

Lee Moore, Australia, 20/10/2014: *It's great that you have such a comprehensive spares availability with such easy options.*

John Gillmeister, Australia, 14/9/2014: *I am so pleased with the service and your personal attention to detail ... by the way ... I lived in the UK-Europe for some 14 years, and loved it...*

Jon Hiscock, 27/8/2014; *Many thanks for your prompt service, it has been much appreciated. All I have to do now is to wait for some good weather!*

Ian Webb, 27/8/2014; *Got the spares OK, excellent service as always, thanks.*

Rosemary Hankis, Portugal, 6/8/2014; *This is to say how glad, and relieved, I was that you were able to help me... The Imp Club has, quite honestly, saved my life...*

Imp Club National 2014, special award for “Outstanding Contribution to The Imp Club”.

Robert Young, 6/4/2014, South Africa; *My consignment was delivered to Roy’s home yesterday. Clearing the shipment through customs was un-eventful and duties levied were minimal. Clearly all paperwork was in order and I thank you for your contribution regarding the initiating documentation.*

Subsequently Roy has checked the shipment and confirmed that everything I ordered was correctly supplied and suffered no damage in its long transit...

I am most appreciative of the time and effort that you devoted to satisfying my large and varied order. Your purchase of the Tex door mirrors on our behalf, and arranging the purchase – and related local logistics – of the replacement dashboard and door cappings from the Chairman, involved you in more than the usual amount of “hassle”, for which I - and Roy - are really most grateful.

The upshot of your contribution, plus of course Roy’s specialist know-how and quality workmanship, is that another Imp which might well have passed into rusty oblivion is being returned to service in a condition which may be stated without exaggeration to be better than new. For example, every screw fastening and numerous small steel fittings and brackets have been glass bead-blasted and electro-galvanised prior to (in some cases) epoxy painting. That’s superior to the factory original. All threaded fasteners are assembled with Coppaslip anti-seize coating - again better than original. When complete in the next few months I’m sure that it will be one of the most carefully assembled and neatest Imps around.

The Club has been a great source of Imp specific know-how for me and together with the Club Forums, Impressions and your excellent Linwood book, has been inspirational and helpful. We will keep you posted of our Imp progress here at the southern tip of Africa. Thanks again for your excellent service and support.

Before that: I just assumed that everyone was happy.

2 Abbreviations used in Imp Club Spares List

PnP	postage and packing cost (see code below)
cw	complete with
bkt	bracket
OS or RH	offside or right hand side of car
NS or LH	nearside or left hand side of car
acc	accelerator
assy	assembly
bkt	bracket
brg	bearing
comp	higher grade part (no guarantee of winning!)

compt	compartment
con	connecting
diff	differential assembly
dizzy	distributor
gskt	gasket
h-lamp	headlamp
hsg	housing
incl	includes
recon	reconditioned
sport	twin carburettor engine as fitted to Sport and Stiletto
std	“standard” engine, i.e. MkI, MkII or MkIII but not Sport
w-pump	water pump
w-screen	windscreen

3 Conditions Applied

Imp Club Spares (part of The Imp Club Ltd.) provides replacement parts for Hillman Imps and related classic cars as listed in these pages. This service is provided for *bone fide* members of The Imp Club to whom these conditions apply. The service is by post or personal collection, we do not deliver. The list describes the goods available and follows the terminology used in Rootes parts publications. The items provided are new, re-conditioned, re-manufactured or new old stock (NOS) to original specification as far as we can ascertain (there is a separate quality control process). There are occasional “special offers” and “accessories”. Second hand items may be offered if this is the only solution available.

The prices shown in this list are accurate at the time of publication and valid for one month thereafter. Items marked with “*” may however vary in price at any time as we depend on our suppliers and their prices can change. We will quote an exact price to people making enquiries personally by letter, e-mail or by phone.

UK debit cards are subject to 1% and UK credit cards subject to 2% additional charge. We are obliged to add 5% for PayPal transactions. Direct transfer from UK banks is usually free, but overseas bank charges may vary. We are VAT registered and all prices quoted include VAT if applicable (marked with “*” in the list).

Delivery costs are simply the price of normal Royal Mail postage, usually first class or Parcel Force if this is advantageous plus a small packing cost if required (we aim to re-cycle packaging if we can), see below. We may choose to add compensation cover to high value orders (over £20) to protect against loss.

Any member of The Imp Club is entitled to use this service and to cancel or change their order prior to its dispatch. Once dispatched or delivered, provided the parts have not been fitted or otherwise “used”, we will refund any un-required parts returned at any time at the purchase price (if within one month) or at a price to be agreed at a later date. Postage and any other “one off” charges however cannot be re-funded.

New, re-conditioned or re-manufactured parts carry a like for like replacement warranty for 6 months from the date of purchase. Any problems or complaints must be notified to The Imp Club at its official

business address within one month of ordering.

4 Postal Rates from April 2017

Please check – current Royal Mail rates as the list below may be out of date and we will charge the current rate.

There is at present no handling charge, except 1-2% extra on debit-credit card or 5% on PayPal payments. UK postage is charged at the following standard rates for 1st class Royal Mail post or equivalent. For instance for a set of front brake shoes at £18.00+SPB you should send £23.50 which includes the Royal Mail cost for a parcel up to 2kg. Normal 1st class post is used for smaller items unless you specifically ask for faster delivery. Please include at least a first class stamp with your order or add on the price as calculated below.

A courier service may be used for body panels and other large or heavy items which cannot easily be packaged. This is however expensive, prices typically starting at around £18.00 in UK. We would normally try to distribute large packages via Imp Express, e.g. the area centre network or at an AGM, committee meeting or National Weekend. For overseas postage we try to send separate parcels with a maximum weight of 2kg if this is cheaper. We will also do this in the UK if it is cheaper or easier packaging.

Royal Mail Letters (standard and L=large, UK only), e.g. if your order will fit in a thin Jiffy bag.

LA	100g	65p			
LLA	100g	98p	LLB	250g	1.30
LLC	500g	1.74	LLD	750g	2.52

Standard Parcels (UK only) are now in two categories: (S=small) up to 45cm x35cm x8cm (or 16cm x16cm x16cm) and 8kg; (M=medium) up to 61cm x46cm x46cm and 20kg. Parcel Force Worldwide services are available up to 1.5m x3m x3m and 30kg, e.g. Parcel Force 48h.

A special deal applies to small parcels up to 2kg – second class postage is only £2.90. We will use this service where possible.

SPA	1kg	3.40	SPB	2kg	5.50
MPA	1kg	5.70	MPB	2kg	8.95
MPC	5kg	15.85	MPD	10kg	21.90
MPE	20kg	33.40			
48hA	2kg	11.99	48hB	5kg	12.98
48hC	10kg	16.40	48hD	15kg	23.14
48hE	20kg	28.51	48hF	25kg	39.64
48hG	30kg	43.78			

We will usually send items over 2kg by Parcel Force 48h which includes compensation for £100. Items over 2kg or parcels to overseas destinations will go by Parcel Force except by special arrangement.

We may choose to use additional compensation options with these services if your goods are valuable. We use a delivery broker with compensation for large orders, particularly overseas, as this gives us the best available rates.

5 Certificates, Technical Books and Tools

From time to time technical books and tools become available when we buy in spares. We have listed the current stock with a guide to condition: New, A, B, C where A, B and C indicate a second hand item in condition ranging from “nearly as new” to “damaged but complete”. If you wish to acquire or pass on a particular technical book or tool please contact us. All new books are available via Regalia.

Heritage Certificates

It was announced by the Government in the Spring 2014 budget that from April there was to be a rolling exemption on VED, that means historic vehicles over a certain age will be tax free. You still need to get a tax disc, but it won't cost anything if you can prove that your Imp was build before January 1974. Next year it will be Jan'1975 and so on.

The Federation for British Historic Vehicle Clubs (FBHVC) issued a press release on this which was re-produced in the May issue of Impressions. You will need evidence of the date of manufacture of your Imp if there is any possible doubt about it.

Working with the Rootes Archive Centre Trust, the Imp Club is able to issue Heritage Certificates for your Imp or any other Rootes vehicle. We are registered with DVLA V765 Scheme. We will provide an individual Certificate and Car Details Sheet. These includes precise dating information plus a variety of other information authenticating the vehicle as it left the production line. It is based on a combination of factory information and other sources. A valuable addition for a cherished vehicle and essential if you are trying to confirm its true identity. We can even print an extra information sheet with history and photographs provided by you.

You can see a sample and download an order form from the Rootes Archive Centre Web site: <http://www.rootesarchivecentre.org.uk>. Just click on the link to “Certificates”.

Prices: Heritage Certificate including Car Details Sheet: £35.00 including PnP; Extra sheet: £1.20 = total £36.20; Overseas: please add extra £4.00.

Books

Price depends on condition as shown in the table below. Please ask for availability as stock changes rapidly (parentheses indicate figures at time of writing). Note: WSM141 is the later Imp Workshop Manual. New parts lists are currently not available. We will try to provide the book most appropriate for your car.

Author	Title (edition)	Price for condition:			
		New	A	B	C

Rootes	WSM016 1963	N/A	15.00 ()	12.00	8.00

Tools

Some tools are available from time to time with condition and price as indicated below by number in parentheses. Original Imp workshop tools are extremely rare and understandably fetch a high price. There was a description of how to make RG355 by Alan Turner in Impressions Apr'1993, so you might be able to get a back issue and try it yourself.

Manufacture	Description	Price for condition (UK pounds):				H *
		NOS	A	B	R *	
9221600	Sparking plug spanner	15.00 (3)				
7103171	Jack with handle		15.00			

7103652	Handle only					
72270728	Tool bag	10.00				
RG188/3	rear hub securing plate from RG188C, D or E		25.00			
RG284	track rod taper knuckle remover		15.00			
RG353	timing chain support	40.00	15.00	10.00	16.00 (15)	
RG354	timing chain tensioner retainer	50.00	15.00 (1)	10.00		
RG355	cylinder head bolt wrench	80.00	70.00			
RG357	valve guide remover-replacer					
RG358	valve guide reamer 9/32"					
RG359	rear engine mtg bush remover- replacer					
RG359 ?	diff brg replacer (use with RG363 and RG4221B-8)					
RG363	diff brg (small) replacer adapter (use with RG359)					
56	diff brg remover					
RG365	g- box assy jig complete		350.00	250.00		
RG366A	diff oil seal and input shaft ball brg replacer					
RG367	reverse gear and pinion nut wrench		15.00			10.00
RG368	needle brg sleeve remover-replacer	65.00	40.00	20.00		10.00
RG369	needle brg remover-replacer					
RG370	pinion brg cup replacer adaptors					
RG372	clutch shaft oil seal replacer	15.00	15.00	10.00		
RG373	diff adjusting nut wrench					10.00
RG374	clutch plate centraliser and spigot bush replacer		35.00	10.00	25.00 (5)	
RG377	universal joint 1/2" AF		15.00			10.00
RG379	rear hub brg assy tool		80.00		50.00	
RG383	diff oil seal remover		30.00			
RG384	clutch shaft oil seal remover		30.00			
RG385	kingpin bush remover-replacer	15.00	15.00	10.00	16.00 (4)	
RG386	suspension arm bush remover- replacer	15.00	15.00	10.00	16.00 (4)	
RG408	front suspension gap gauges		75.00			
RG4221B-8	diff large brg replacer adapter					
RG534	bezel nut wrench					
RG535	rubber mldg glazing tool					8.00
RG536	crankshaft spigot bush replacer		30.00	15.00		
550	driver handle					
RG613A	valve spring compressor		100.00			40.00
RG6513A-3	valve spring compressor					
1414	synchro hub retainer clips (pair)					
1602	Baty dial gauge set					
RG4221B-8	code 29 adaptor for diff brg replace- ment (large)					
D.143T	tappet remover					

donut clamp (stainless) 14mm plug thread tap		5.00 (1)		10.00
---	--	----------	--	-------

Sykes-Pickavant 039500 professional valve spring compressor, as new £60.00.

* Items R are replica made by The Imp Club. Items H are Home Made (probably by former Club members) or after market.

RG374 is described: *an immediate engagement of the Clutch Shaft Spigot in the Crankshaft is achieved using RG374 when re-assembling the Engine to the Transmission. By using two diameters for location the Tool centralises the Clutch Driven Plate in relation to the Flywheel. The Tool can also be used in Hydraulic application to remove the Crankshaft Spigot Bush.*

Workshop Supplies

We are working with a Club member, Peter Lewis, who runs Chemsol UK. He is able to provide a range of environmentally friendly chemicals for work on classic cars. We have so far identified the following which might be useful. Please let us know what you think and what quantities might be of interest. Also let us know if there is anything else required.

Rust Converter – turns light rust black and ready to paint. £11.50+VAT per 1 litre.

CI Rust Preventer (water based) – protects bare metal for some time, e.g. after blasting or sanding – £12.00+VAT per 5 litre ready to use. It is also available in concentrated form which can be diluted with water at a rate of 5:1 or more, £11.00+VAT per 1 litre.

CS52 Penetrating Rust Preventer and de-water – to be used as a releasing agent or oil film or sprayed on electrical components to maybe make them work – £15.00+VAT per 5 litre or £4.00+VAT per 1 litre.

De-Greaser (water based) – make your engine and transaxle spotless; substitute for elbow grease? Price TBC.

Trigger spray bottle – £2.00+VAT

6 Engine and Auxiliaries including Cooling

Note: We have a range of re-conditioned radiators in stock and also new supplies of re-con water pumps. Rads and pumps are available on an exchange basis via the ACO network (for members only) – there is a surcharge for non-return and may be additional postal cost. Unfortunately the quality of some of the old ones returned means that there has been a price increase. Please return good old ones!

All gaskets and hoses are available newly made. Newly made piston rings are now available in certain sizes.

We have been informed that there is going to be a large increase in the cost of valves soon if they have to be re-manufactured.

Silicone radiator hoses are available at around £90 a set of three – we can put you in touch with the supplier. Tell us what else you need...

Note: Re-conditioned items carry a replacement warranty for six months from time of sale. If you are not happy with what you have received, please contact us immediately.

7 Carburettor and Exhaust

Note: Many members have reported problems with un-leaded fuel. We have O-rings, tubes and hoses in improved materials to counteract this.

The problem with un-leaded fuel is that ethanol is being added to make it so called "environmentally friendly". This can corrode many metals, destroy your fuel tank lining and de-grade rubber based elastomers and some plastics on all old cars. The FBHVC are researching into this and we will do our best to supply components using the best materials available as recommended by them.

WARNING: If you leave your car standing and the fuel evaporates, it will leave a green coloured resin inside your carb. This is extremely difficult to remove!

We now have a number of Stromberg and Solex kits in stock fitted with Viton o-rings and tubes. Such parts are currently expensive and hard to get, although some prices are coming down. We have a stock of the fuel transfer tubes for Solex. O-rings and diaphragms for Stromberg also available separately and we are looking into fuel pump components.

Guide prices for top grade stainless exhaust systems are given below. We will advise exact price and supplier at time of order.

Cables of various kinds have been re-manufactured, and available in lengths either standard or to order for special applications.

We often order items in bulk, so that we can pass them on to Club members at a good price.

8 Transaxle and Gearchange

Note: Original clutch covers are getting increasingly hard to get. If you have any used but reasonably good units please keep them for re-conditioning. Laycock diaphragm type are now only available from time to time. We can at present supply Laycock diaphragm and Borg and Beck spring and lever

clutches *note, the ones we supply are the correct ones for the Imp.* Alternative manufacture such as QH and LUK are also available from time to time, please ask.

Please keep all clutch driven plates for re-conditioning.

All seals and O-rings including spigot bushes plus seals are currently available.

Note: Re-conditioned items carry a replacement warranty for six months from time of sale. If you are not happy with what you have received, please contact us immediately.

9 Suspension and Steering

Note: Re-conditioned items carry a replacement warranty for six months from time of sale. If you are not happy with what you have received, please contact us immediately.

Unfortunately there are very few front shock absorbers left now. Rear shocks are available plus a small number of front ones which are now hard to obtain. We will maintain current prices as long as possible. Special requirements can be catered for including re-conditioning and springs.

Bolt packs for suspension (16x bolts, nuts and washers all in BZP) does front and rear now available at £28.00 plus PnP. We can also supply them in sets for front only (10x bolts, £18.00) or rear (6x bolts, £10.00). A complete car set including bolts, screws and washers for suspension including the brackets to floor is £44.00. These are "S" grade tensile the same as the original spec. All bolts also available separately, please ask. Some stainless bolts also to order at approx 2x price, please ask.

All wheel bearings are currently available. We can still occasionally obtain the original spec rear wheel bearings, but they are quite expensive, please ask for a quote as they may have to be paid for at time of order.

We can overhaul steering racks to order on an exchange or return basis.

Wheels, Tyres and Trim

10 Brakes and Controls

Note: Most service brake parts are available new to Unfortunately repair kits have gone up a lot

recently and the Girling ones don't fit the new (correct size) front wheel cylinders. Master cylinders are available in a range of sizes for servo or non-servo cars or trikes.

New standard and Goodridge style hoses are available for all requirements, but prices have increased slightly. We source items in bulk, so that we can pass savings on to Club members at near to cost price. We also now stock all brake pipes in salt resistant cunifer 10 material (10:90 nickel:copper). Clutch and fuel pipes are available in the same material. These can be made up to length for special orders.

We can provide front disc conversions which are a good modern alternative to the servo. They are based on Ford Fiesta or KA components. You will need a 0.7" master cylinder which we have in stock and to obtain your own re-conditioned calipers.

Note: We re-condition items such as brake shoes and provide a variety of friction materials, please ask. Re-conditioned items carry a replacement warranty for six months from time of sale.

Servo or Disc Brakes

11 Electrical Components

Note: New parts being produced include: a variety of H.T. leads to order made up by ourselves. Most other electrical service components for both standard road and competition cars can be obtained new to order. Prices may vary. Beware of cheap imports sold on the Internet.

Foam lamp gaskets are now in stock – a lot cheaper than those on the Internet because we own the original tooling. They are available individually or in car sets at £12.00 for the early L717 front side-indicator lamp assy or the later L792 assy and include the 4x rear gaskets for L691-2 lamps, less if you've got the Wipac push on rear lamps as you will only need the front gaskets.

Stocks of original Lucas front lamps and lenses are now low.

14 Body Fittings

We have sourced modern laminated and heated glass windscreens and are currently investigating re-manufacture of rear screens. Front screens are now available for Imp Club members. Heated screens carry a warranty of 90 days on the element. Water is the biggest problem for heated glass. It is very important that no water can get to the edge of the glass or the element will start to fail very quickly. All rubber fit screens must be sealed with the correct grade of non-setting windscreen rubber fit sealer, such as INDASA. If this is not done the warranty will be void. For wiring diagram [click here](#).

Screens can be posted within UK at an extra cost of £44.00. For shipping overseas please ask. We may refer you to our supplier.

Hand brake rubber grommet, 7" headlamp seals, engine lid buffers, fan cowl gaiter and clip, bonnet stay rubber clip and mirror stem buffers are available again. More 1/4 vent seals in stock now. Some rubber items are still on the list for re-manufacture, including many of the smaller items.

Note: Re-conditioned items carry a replacement warranty for six months from time of sale. If you are not happy with what you have received, please contact us immediately.

We are now able to supply a full range of grommets and bungs to fit the Imp body shell. You will need to tell us the size and qty required as cars may vary. We buy trim clips, o-rings, grommets and similar items in bulk, so that we can offer them to Club members at near to cost price. We can add to the range for special requirements, please tell us what you need including the size. The types available are as follows.

open: plain standard rubber grommet, e.g. for brake pipes and cables;

blank: rubber to fill holes, can be perforated for pipes, cables etc.

PVC: PVC blanking, e.g. for floor bungs;

wiring: Lucas soft rubber type for harness, hoses etc.

sleeve: special, e.g. for wiper rack tube through bulkhead, may be hard to obtain.

Grommets etc.

Coloured carpets 10% extra unless priced separately. LHD also available.

16 The Specialist Panel

In addition to our own spares business, the Imp Club Ltd. aims to offer a wide range of advice on spares and services to owners of Hillman Imps derivatives. In order to do this we have created a *Specialist Panel* of professionals who have long experience of working with Imps or supplying parts for them.

Information on what is available from the Panel will be reviewed from time to time, as will the accumulated information on alternative parts from other cars and parts re-manufactured or requirements for sourcing. If you know of anyone offering particular services, or yourself wish to feature in this list, please contact the Spares Coordinator.

The following information is given for each panel member.

Title

Name: Name
 Contact: Postal address (snail Mail)
 Telephone: Other contact (Tel, Fax, e-Mail, Mobile, Web, ESP, Pidgeon, etc.)
 Description: General area of specialisation, e.g. body panels, engines, gearboxes, stuff, competition work, etc.
 Hours: Hours during which willing to receive calls. Visit by appointment only (obviously!)

Alpine West Midlands

Name: Alpine West Midlands Ltd.
 Contact: Sue, Redditch, Worcs.
 Telephone: Tel: +44 (0)1527 401498; Mobile: +44 (0)7767 604091; Fax: +44 (0)1527 543494; e-Mail: alpine.westmids@sunbeam-alpine.co.uk; Web: <http://www.sunbeam-alpine.co.uk>

Description: We offer over 500 separate spares for the Sunbeam Alpine and Tiger sports cars, in which we specialise, together with a unique range of repair panels for Rapier, Minx, Gazelle, Superminx, Vogue, Sceptre and Fastback models. Our range of spares now covers most of the classic Rootes marque, now including Imp and Avenger (please call us), and an On line shopping facility for the purchase of our more popular items, especially from our comprehensive range of Sunbeam Alpine and Tiger parts and spares, is available now and is being expanded. Our on line shopping facility uses SSL technology – a standard means of sending encrypted data across the Internet. We can offer a Lead Free Conversion service. A wide selection of Second Hand Spares is also available.
